Your music + our passion

The compromise is over...

If you love your music, choosing a mini hi-fi system traditionally involves a significant compromise. Stylish all-in one solutions can look great but ultimate performance and sound quality are all too often only skin deep.

All this changes with *One*TM, a system which harnesses the convenience of your iPod with a fully-integrated micro hi-fi system. Punching well above its weight, a powerful amplifier, custom designed iPod dock, hi-fi quality CD player and a state-of-the-art DAB/FM radio work in perfect harmony.

You won't believe your eyes – or ears! – when you see how much *One* manages to achieve from a single neat box. It's the perfect system for any location.

Incredible flexibility...

One features a muscular integrated amplifier producing 30 watts per channel, matched to a premium-grade slot-load CD player with repeat, shuffle and track programme functions. It also handles discs containing WMA and MP3 files offering full text readout. Digital music stored on SD cards and USB devices can also be accessed - via a front-mounted card reader or USB connector - and other MP3 players have a dedicated input too. The high-sensitivity DAB/FM RDS tuner includes 20 presets for instant access to your favourite digital and analogue radio stations and displays music track data and station name.

With all this and much more, *One* offers a unique blend of true hi-fi performance, styling and incredible value. Just 215mm wide, *One* is guaranteed to look as cool as it sounds in any home.

Power and pace...

Despite its size and good looks, *One* delivers 30 watts of pure power with none of the distortion that plagues lesser 'style' systems. This stunning performance is a unique combination of Cambridge Audio's forty year hi-fi heritage and its relentless passion to make the most of your music, whatever format it's stored on.

 **Cambridge Audio**

Looking for the perfect partner?

To make the very most of your *One* system, choose from Cambridge Audio's stunning Sirocco speaker range. With a great choice of sizes and finishes, there's no better speaker partner.

S30
 "...classy looking, sound superb and offer an intriguing alternative to established favourites..."

SL30
 The Sirocco Ultima SL30s take compact speaker design to the next level with an upgraded crossover and tweeter and stunning gloss lacquer black cabinet.

Sirocco S20 + S90
 Reaching down to the lowest notes, the S90 subwoofer enables you to use smaller S20 satellite speakers with your *One* system yet still maintain the depth of sound you'd expect from a full-size speaker system. See our website for a full range of options.
